Anagram

Problem Code: **TECH04**

Submit

In this problem, you are given two strings S1 and S2, your task is to determine whether one string is an anagram of the other. An anagram of a string is a string obtained by permuting the letters of a string. For example aaba and aaab are anagrams, while abcd and deba are not.

Input

The first line would consist of the number of test cases 'T'. This would be followed by 'T' lines consisting of two space separated strings. The strings would consist of only letters 'a'-'z'. Each string would consist of no more than 20 characters.

Output

You have to print "YES" if one string is an anagram of the other or "NO" otherwise.

Example

Input :

```
2
aaba aaab
abcd deba
```

Output :

```
YES
NO
```

CodeChef - A Platform for Aspiring Programmers

CodeChef was created as a platform to help programmers make it big in the world of **algorithms**, **computer programming**, and **programming contests**. At CodeChef we work hard to revive the geek in you by hosting a **programming contest** at the start of the month and two smaller programming challenges at the middle and end of the month. We also aim to have training sessions and discussions related to **algorithms**, **binary search**, technicalities like **array size** and the likes. Apart from providing a platform for **programming competitions**, CodeChef also has various algorithm tutorials and forum discussions to help those who are new to the world of **computer programming**.

Practice Section - A Place to hone your 'Computer Programming Skills'

Try your hand at one of our many practice problems and submit your solution in the language of your choice. Our **programming contest** judge accepts solutions in over 55+ programming languages. Preparing for coding contests were never this much fun! Receive points, and move up through the CodeChef ranks. Use our practice section to better prepare yourself for the multiple **programming challenges** that take place through-out the month on CodeChef.

Compete - Monthly Programming Contests, Cook-off and Lunchtime

Here is where you can show off your **computer programming skills**. Take part in our 10 days long monthly coding contest and the shorter format Cook-off and Lunchtime **coding contests**. Put yourself up for recognition and win great prizes. Our **programming contests** have prizes worth up to INR 20,000 (for Indian Community), \$700 (for Global Community) and lots more CodeChef goodies up for grabs.
